MineARC
Charger Rack

Constructed from robust, hard-wearing powder coated steel, the new MineARC Charger Rack's unique design offers optimal flexibility; allowing you to order a rack specific to your needs and products on site.

The option of a double-sided rack is available, or alternatively, multiple racks can sit flush side-by-side for a larger charging station.

Mix and match your modules to suit a variety of MineARC devices, or choose from the standard configurations shown below. Depending on device quantity, a two- or three-module high rack might be most suitable.

**MIXED RACK CONFIGURATIONS
